

Performance Ignition Components

Ignition Sets: Pistol Dynamics Hi-Performance ignition sets are machined from high quality carbon steel and designed for 'drop-in' performance. Some adjustment to the parts may be required based on the pin trueness and location in your frame. ***We strongly recommend that these parts be fitted by a qualified gunsmith .***

Practical II Basic Ignition Set consists of a PD 'Hollow-Core' hammer, sear and disconnecter. Hammer hooks and sear engagement produces a 3.5-4.0 lb trigger for a secure carry or IDPA application.....**\$98.00**

Hammer Only.....**\$59.00**

Sear Only.....**\$26.00**

Disconnecter Only.....**\$18.00**
